DREAMER ^{mattress} H3

Hotel HILLS Sarajevo

Dreamer, a premium hotel mattress for superior sleep experience. Fire-retardant, anti-allergy, knitted fabric combined with reinforced pocket spring core and highly elastic HR foam with strong side support make this exclusive mattress worthy of your hotel environment. It is a compact, double-sided mattress. The available thicknesses are 25, 28 and 30 cm. The hardness of the mattress is H3.

- The mattress complies with the **EU Norm HRN EN 1725:2001** regarding the fulfilment of safety requirements and endurance test methods.
- The mattress cover meets the **BS 7177-1996** standard regarding resistance to ignition and is resistant to ignition from ignition sources **EN597-1** and **EN597-2**.
- The foam and cover of the mattress meet the strict safety and health criteria certified by the **Öeko-TEX Standard 100, Class 1 Certificate**.
- **Sanitized®** antibacterial and anti-allergy cover treatment.

DREAMER
mattress

Hotel COURTYARD BY MARRIOTT Sarajevo

Cover

Antibacterial, fire-retardant, knitted fabric 240 g/m² - 100% PES, quilted with filler: 350 g/m²-100% PES and retex 25 g/m². Tape edged on every side. There are handles on the sides of the mattress for ease of flipping. Horizontal quilt design on the top and bottom surface and on the sides of the mattress.

Core

Reinforced pocket spring core 2.0 mm – 255 pocket springs/m²; thickness: 12 cm; coated with soft felt 700 g/m² on both sides of the wire core.

Foam liner

The sleep surfaces of the mattress are made of highly elastic HR foam (specific weight: 37 kg/m³; compressive strength: 4.4 kPa/m³; thickness: 5 cm) combined with strong side supports made of PU foam (specific weight: 40 kg/m³; compressive strength: 7.0 kPa/m³; thickness: 10 cm).

Bed comfort is one of the key factors influencing the overall impression of a hotel accommodation. According to researchers conducted in the USA, 70% of visitors form impressions of a hotel based on the comfort of the bed. The awareness of healthy sleeping has increased and a high-quality mattress is what guests want. Hotel managers pay attention to room furniture, TVs and mini-bars. However, these often remain unused, unlike beds that guests will definitely sleep in. Researches have also shown that guests are most relaxed in predominantly white beds. Make your sleeping environment white!

PRESIDENT ^{mattress} H2

President, for ideal pressure distribution and maximum sleep comfort. The base of the mattress is made of reinforced pocket spring core and standard firmness foam on both sides of the mattress, enabling ideal body support. Fire-retardant, anti-allergy, woven fabric disables the development of harmful bacteria while the summer/winter feature creates an ideal sleep environment. The mattress is double-sided and available in thicknesses of 25, 28 and 30 cm. The hardness of the mattress is H2.

- The mattress complies with the EU Norm **HRN EN 1725:2001** regarding the fulfilment of safety requirements and endurance test methods.
- The mattress cover meets the **BS 7177-1996** standard regarding resistance to ignition and is resistant to ignition from ignition sources EN597-1 and EN597-2.
- The foam and cover of the mattress meet the strict safety and health criteria certified by the **Oeko -Tex Standard 100, Class 1 Certificate**.
- **Sanitized®** antibacterial and anti-allergy cover treatment.
- **BugShield®** new technologies with purpose of protecting from bed bugs!

PRESIDENT
mattress

Hotel PRESIDENT Sarajevo

Cover

Antibacterial, fire-retardant, woven fabric 128 g/m² – 54.5% PES/45.5% PP, quilted with filler: 350 g/m²-100% wool on the winter side and 100% PES on the summer side and retex 25 g/m². Tape edged on every side. There are handles stitched to the sides of the mattress for ease of flipping. Diamond quilt pattern at the top and bottom surface, combined with wave pattern on the sides of the mattress.

Core

Reinforced pocket spring core 2.0 mm – 255 pocket springs/m²; thickness: 12 cm; coated with soft felt 700 g/m² on both sides of the wire core.

Foam liner

The sleep surfaces of the mattress are made of highly elastic PU foam (specific weight: 30 kg/m³; compressive strength: 3.0 kPa/m³; thickness: 5 cm) combined with strong side supports made of PU foam (specific weight: 40 kg/m³; compressive strength: 7.0 kPa/m³; thickness: 10 cm).

Do you know what your guests are doing in the rooms? To ensure the endurance of all the elements of a hotel room, especially those most commonly used with a focus on mattresses, special attention should be paid to durability. In our mattresses we have managed to complement the durability with comfort, the most important element for guests. High durability of each mattress from our hotel collection is guaranteed according to EU norms HRN EN 1725:2001, in terms of structure and the quality of fabric. Strong side reinforcements will endure sitting on the edges and minimize the negative effects of excessive pressures.

ADRIATICO ^{mattress} _{H3}

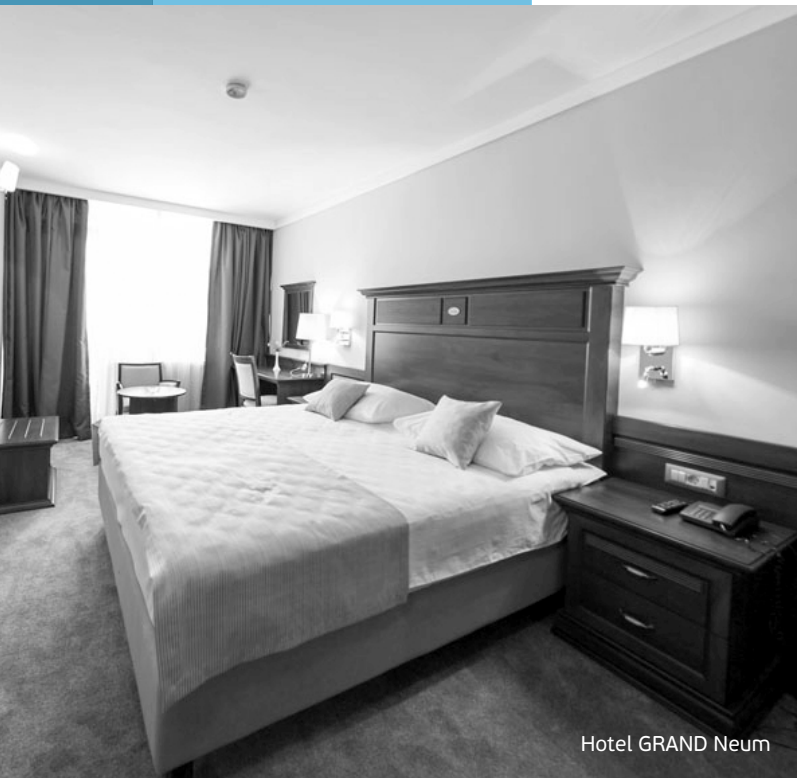

Hotel HILLS Sarajevo

Adriatico, a functional, breathable mattress with exceptional side support. The possibility of zipping two single mattresses together to form one bed provides additional value. Reinforced pocket spring core covered with foam layers provides extraordinary support and meets high durability standards. Breathable 3D border tape, along with anti-allergy, fire retardant fabric recommended Adriatico to some of the best hotels in the region. The mattress is double-sided and available in the height of 25 cm. The hardness of the mattress is H3.

- The mattress complies with the EU Norm **HRN EN 1725:2001** regarding the fulfilment of safety requirements and endurance test methods.
- The mattress cover meets the **BS 7177-1996** standard regarding resistance to ignition and is resistant to ignition from ignition sources **EN597-1** and **EN597-2**.
- The foam and cover of the mattress meet the strict safety and health criteria certified by the **Öeko -Tex Standard 100, Class 1 Certificate**.
- **Sanitized®** antibacterial and anti-allergy cover treatment.

Hotel GRAND Neum

Cover

Antibacterial, fire-retardant, woven fabric 110 g/m² – 76% PES/24% PP, quilted with filler: 350 g/m²-100% PES and retex 25 g/m². Tape edged on every side. Zippers are attached to inner edges on both longer sides of single mattresses. There are handles stitched to the sides of the mattress, for ease of flipping. Diamond quilt pattern at the top and bottom surface, combined with breathable 3D border tape on the sides of the mattress.

Core

Reinforced pocket spring core 2.0 mm – 255 pocket springs/m²; thickness: 12 cm; coated with soft felt 700 g/m² on both sides of the wire core.

Foam liner

The sleep surfaces of the mattress are made of two layers of PU foam with total thickness of 5 cm (one of the layers has specific weight of 25 kg/m³ and compressive strength of 3.4 kPa/m³, while the other has specific weight of 25 kg/m³ and compressive strength of 4.1 kPa/m³). The side supports are made of PU foam (specific weight: 40 kg/m³; compressive strength: 7.0 kPa/m³; thickness: 10 cm).

Challenge us with your special requirements and specific dimensions! Each furnishing project needs to adapt to the requirements of the room and we offer product variants upon your request. We pay great attention to safety and fire protection and use fire-retardant fabrics satisfying the requirements of BS 7177:1996 in all our mattresses. Our expert team is at your disposal for any ideas or advice you may need while furnishing your accommodation facilities!

BOXspring beds

Hotel HILLS Sarajevo

Create your own
BOXspring bed combination!

Pick:

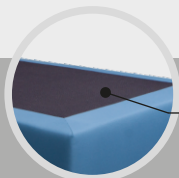

- boxBASE
regular or antislip fabric
- boxHEADBOARD
option A or B
- boxLEGS
five different options

BOXspring bed has become a recognisable element of hotel rooms' visual identity and an indispensable part of functional design. It consists of a boxBASE as the basic element, the boxHEADBOARD and the boxLEGS. Each of the elements is manufactured in several options, so, by combining them, you can personalise your BOXspring bed. BOXspring beds save precious space in the room, provide maximum support to the mattress and significantly influence the guests' overall impression of comfort. One of its handy features is the possibility to join two single beds into one, for a simple transformation of a twin bed room into a double bed room. It is an ideal addition to the mattresses from our hotel collection.

- BOXspring beds comply with the EU Norm **HRN EN 1725:2001** regarding the fulfilment of safety requirements and endurance test methods.
- The foam and covers of the beds meet the strict safety and health criteria certified by the **Öeko-TEX Standard 100, Class 1 Certificate**.
- PU SOFT textiles of the BOXspring system, as one of the selectable options, comply with the EU Regulation **REACH 1907/2006** regarding safety.

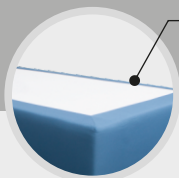

boxBASE

BoxBASE is the main element of the bed. It consists of a 14 cm thick Bonnell spring core (2.2 mm – 110 springs/m²) and a strong frame made of solid wood, chipboard and PU foam with outer decorative fabric of your choice. There are two options of boxBASE differing by the type of fabric on the top surface, **ANTISLIDE** and **REGULAR**. See page 18 for the choice of decorative upholstery fabrics for boxBASE and boxHEADBOARD.

antislide

ANTISLIDE option of boxBASE, with certified fabric which prevents the mattress from slipping and falling off the boxBASE.

regular

REGULAR option of boxBASE, with standard fabric and anti-allergy sleep surface.

Upon request, we can also offer a boxBASE option with Bonnell spring core (wire diameter: 2.4 mm), as well as an option with pocket spring core.

Technical Data

Special requirements	Available in other dimensions upon request.			

We reserve the right to change the technical characteristics

boxHEADBOARD

boxHEADBOARD is a decorative element of the BOXspring bed which upgrades the visual impression of the hotel room. It is made of solid wood and chipboard and upholstered with PU foam layer and decorative fabric of your choice. It can be easily mounted to the boxBASE. There are two options of boxHEADBOARD which differ in shape, headboard A and B. The choice of decorative coating fabric for the boxHEADBOARD is the same as for the boxBASE.

headboard A

Quilted decorative headboard, ideal for luxury hotel rooms.

We reserve the right to change the technical characteristics

boxLEGS

boxLEGS are an indispensable part of the bed providing solid and secure support to the boxBASE and boxHEADBOARD. They come in five options, so you can fully personalise your BOXspring bed.

- Each element of the BOXspring bed is delivered separately.
- Depending on the intended use, BOXspring bed can be used without the boxHEADBOARD.
- The BOXspring bed shown in the Catalogue consists of an antislide boxBASE (decorative fabric NEO 110) + boxHEADBOARD A (decorative fabric NEO 110) + boxLEGS WB.

Wooden WB/WN

- made of beech wood
- metal coupler to connect to the boxBASE
- height: 10 cm (the only height available)
- width/length: 5x8 cm
- wood colour options WB and WN

Metal glossy MG

- made of stainless steel
- buton/holes to connect to the boxBASE
- height 11.5 cm (the only height available)

Matte metal MM

- made of stainless steel
- metal coupler to connect to the boxBASE
- height 11 cm (the only height available)
- diameter: 7/6 cm

Plastic PL

- made of solid plastic alloy
- height 5.5 cm (the only height available).
- diameter: 5 cm

Plastic with wheel PR

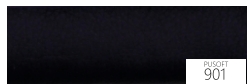

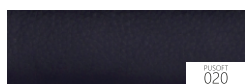

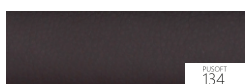

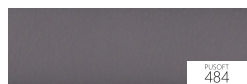

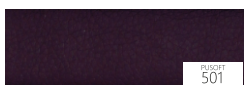

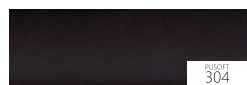

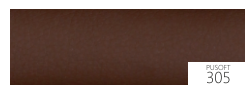

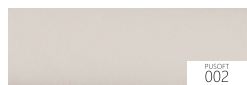

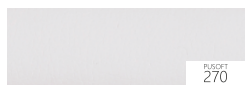

- plastic legs combined with a wheel for easier turning of the boxBASE
- made of solid plastic alloy and metal wheel
- height 5.5 cm (the only height available).
- diameter: 5 cm

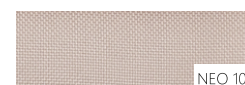

Decorative upholstery fabrics for boxBASE and boxHEADBOARD

Besides being highly functional, BOXspring beds are also design elements, giving a personal touch to a hotel room. Pick a shade from our colour palette to perfectly fit your environment. You can choose between two types of fabrics **PU SOFT eco-leather** and **NEO textile**, each in 12 different colours. Find the one that fits your requirements!

PU SOFT
eco-leather
soft, modern,
elegant,
easily maintained

NEO
textile
high-quality,
densely woven,
elegant, modern

INFO: Two single boxBASEs are joined into a double bed using a "crocodile system", a clip situated at the lower part of the boxBASE.

Hotel bedding and linen collection

toppers, protectors, duvets, pillows, sheets, duvet covers, pillowcases

The sleep setup for a hotel room is completed by our bedding and linen collection. This collection complements the healthy and comfortable sleep environment because a well-rested guest is a satisfied guest.

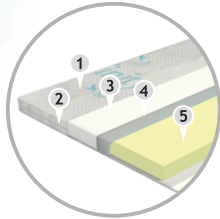

toppers

Toppers are placed over the mattress and make an ideal element for improvement of the hotel bed. We offer two models, Tamara topper and Infinity topper. They both feature an anti-allergy washable cover with a zip-fastener for easy stripping and elastic bands attached at all for sides to hold it in place.

topper Tamara

- 1 Antibacterial Ultra-fresh® knitted fabric 230 g/m² - 100% PES
- 2 Zipper
- 3 Filler 200 g/m² - 100% PES
- 4 Retex 25 g/m²
- 5 PU foam - specific weight : 35 kg/m³, compressive strength: 3.5 kPa/m³, thickness: 4 cm.

topper Infinity

- 1 Antibacterial designed Ultra-fresh® knitted fabric 230 g/m² - 100% PES
- 2 Zipper
- 3 Filler 200 g/m² - 100% PES
- 4 Retex 25 g/m²
- 5 Memory foam - specific weight: 50 kg/m³, compressive strength: 1.5 kPa/m³; thickness 4 cm

protectors

Protectors are an indispensable element for hotel mattress protection. If you have invested in a quality mattress, make sure you protect it for the long-term. We offer two types of mattress protectors, **Practic** and **Waterproof**. Secure your investment by choosing one of them.

protector Practic

Description and composition of the product: fabric 145 g/m² - 100% cotton, quilted with 200 g/m² -100% PES and retex 25 g/m². This protector is washable at 60°C. Elastic bands attached to all four sides make sure it stays firmly attached to the mattress. It is available in lengths of up to 210 cm and optional widths. Dimensions of protector Practic should be the same as dimensions of the top surface of the mattress. It can be used with all mattresses of regular heights.

protector Waterproof

Description and composition of the product: waterproof terrycloth 140 g/m² - 100% PES, with 100% cotton fabric 120 g/m² on the sides. The protector is elastic at the bottom, so it stays firmly attached to the mattress. It is available in lengths of up to 210 cm and optional widths. When ordering a protector Waterproof, please indicate the thickness of the mattress.

- The foam and covers of the products meet the strict safety and health criteria certified by the **Öeko - Tex Standard 100, Class 1 Certificate**.
- **Ultra-fresh®** antibacterial and anti-allergy treatment of the topper cover.

Hotel bedding and linen collection

toppers, protectors, duvets, pillows, sheets, duvet covers, pillowcases

Duvets

Duvets for the perfect feel and warmth of sleep environment. We offer two kinds of duvets, differing by their covers. Both **Cotton** and **Classic** duvets are filled with gentle and soft fibre.

duvet Cotton

Description and composition of the product: fabric 145 /m² - 100% cotton on both sides, quilted with filler - fibre 200 g/m² - 100% PES. This duvet is washable at 60 °C. It is available in lengths of up to 200 cm and optional widths. The standard width is 140 cm for single and 200 cm for double bed.

duvet Classic

Description and composition of the product: fabric 85 /m² - 100% cotton on both sides, quilted with filler - fibre 200 g/m² - 100% PES. This duvet is washable at 60 °C. It is available in lengths of up to 200 cm and optional widths. The standard width is 140 cm for single and 200 cm for double bed.

Pillows

The pillow is an indispensable part of bedding collection. Adequate pillows are key to the guest's satisfaction. Preferably, there should be several pillows of different types and sizes in a hotel room, so to satisfy different preferences of any guest. In our standard collection we offer two types of classic pillows, **Cotton** and **Classic**, both height-adjustable and available in two dimensions.

pillow Cotton

Description and composition of the product: fabric 145 /m² - 100% cotton, quilted with fibre 100 g/m² - 100% PES and retex 25 g/m². This pillow has a zipper, allowing removal of its cover for separate washing, as well as height adjustment by simply removing some filler. It is washable at 60 °C. Available dimensions: 80x60 and 70x50 cm.

pillow Classic

Description and composition of the product: fabric 85 g/m² - 100% PES, quilted with fibre 100 g/m² - 100% PES and retex 25 g/m². This pillow has a zipper, allowing removal of its cover for separate washing, as well as height adjustment by simply removing some filler. It is washable at 60 °C. Available dimensions: 80x60 and 70x50 cm.

Sheets

Sheets define the feeling of comfort based on the contact with the body. They are an indispensable part of any linen collection. Our collection is focused on cotton fabrics which are highly appreciated due to their natural comfort. We offer three types of sheets, made of finest pure 100% cotton: **SatinPlain**, **SatinStripe** and **Cotton**.

sheet SatinPlain

Description and composition of the product: fabric 145 g/m² - 100% cotton. This sheet is smooth and very soft, providing a silky feel. It is washable at 90 °C and available in lengths of up to 280 cm and optional widths.

sheet SatinStripe

Description and composition of the product: fabric 145 g/m² - 100% cotton. This is an extremely gentle, jacquard stripe sheet. It is washable at 90 °C and available in lengths of up to 280 cm and optional widths.

sheet Cotton

Description and composition of the product: fabric 120 g/m² - 100% cotton. This is a breathable sheet, washable at 90 °C and available in lengths of up to 280 cm and optional widths.

Guests often have special demands for different shapes and types of pillows. This is why some famous hotels chains now offer **Pillow Menu**, giving guests a choice of different pillows. This presentation highlights several classic pillows but we can also offer anatomic pillows of different shapes. If you decide to offer your guests a wider choice of pillows, please contact us so we can provide a special offer of pillows and make your accommodation even more comfortable for your dear guests!

Duvet covers

Duvet cover are an essential component of linen collection. We offer three types of cotton duvets made of cotton fabric, matching the sheets from our collection.

SatinPlain, **SatinStripe** and **Cotton** duvet covers are made with an internal flap which closes the duvet inside.

duvet cover SatinPlain

Description and composition of the product: fabric 145 g/m² - 100% cotton. This duvet cover is made of finest, shiny cotton satin fabric. It is washable at 90 °C and available in lengths of up to 240 cm and optional widths.

duvet cover SatinStripe

Description and composition of the product: fabric 145 g/m² - 100% cotton. This is a ribbed cotton duvet cover made of the finest cotton with satin embroidery. Its stripe design will provide a special feel of luxury to your hotel room. It is washable at 90 °C and available in lengths of up to 240 cm and optional widths.

duvet cover Cotton

Description and composition of the product: fabric 120 g/m² - 100% cotton. This duvet cover is breathable and washable at 90 °C. It is available in lengths of up to 240 cm and optional widths.

 When choosing linen (sheets, duvet covers and pillowcases), pay attention to the composition of fabric because it comes into the direct contact with skin. Cotton is considered an adequate fabric due to its high moisture absorption property, as well as its softness and peel strength. If you are looking for a superior and comfortable sleep environment, than satin bed linen is your ideal choice. Satin bed linens are top quality linens and as such they make a reasonable investment.

Pillowcases

Pillowcases are the last but not least element of the linen collection. We have standardised our offer of pillows, duvet covers and sheets and are ready to offer **SatinPlain**, **SatinStripe** and **Cotton** pillowcases. They are easy to maintain, durable, made of natural materials, with internal flaps.

pillowcase SatinPlain

Description and composition of the product: fabric 145 g/m² - 100% cotton. This pillowcase comes in standard dimensions of 75x55 and 85x65 cm, while other dimensions are available upon request. Your face will love this pillowcase. It is made of the finest cotton satin fabric and washable at 90 °C

pillowcase SatinStripe

Description and composition of the product: fabric 145 g/m² - 100% cotton. This pillowcase, combined with the matching sheet and duvet cover from our collection, will enhance the appearance of your hotel room. It comes in standard dimensions of 75x55 and 85x65 cm, while other dimensions are available upon request. It is washable at 90 °C.

pillowcase Cotton

Description and composition of the product: fabric 120 g/m² - 100% cotton. This pillowcase is washable at 90 °C. It comes in standard dimensions of 75x55 and 85x65 cm, while other dimensions are available upon request.
